

# BRIGHTER FUTURES LEARNING CENTER

Cibolo, Texas

## PROJECT INFORMATION

### PROJECT TYPE

New Construction

### EFFECTIVE AREA

13,000 Sq. Ft.

### CONSTRUCTION COSTS

\$3.0 Million

### COMPLETION DATE

August, 2017

### OWNER

Brighter Futures, LLC

### ARCHITECT OF RECORD

Acuform Architecture

### CONTRACTOR

Goodwin+Green, LLC

### EXPERTISE

Needs Assessment  
Site Planning & Design  
Interior Design  
Extensive Code Analysis  
Design-Build

## PROJECT DESCRIPTION

Shortly after the completion of the building addition in Schertz, Brighter Futures hired Acuform to design and build a new, larger facility in neighboring Cibolo, Texas. We worked with the owner to develop a master plan to include this day care and a retail center.

We were again tasked with maximizing the property and the efficiencies of the day care center under state laws. The building is broken into a younger age group wing and an older age group wing. Shared functions child drop-off/pick-up, the outdoor play area, kitchen and the multi-purpose room were centrally located. We employed bold geometric forms and primary colors to stimulate the minds of the buildings primary occupants.

“**Acuform carefully listened to our needs and came up with an exceptional design solution to meet this rapidly growing market.**

**- Rhonda Williams, Owner**
