G.W. Mitchell Construction

EXPERTISE

Needs Assessment
Site Planning & Design
Building Design
Interior Design
Regulatory Approvals
Contract Administration

PROJECT DESCRIPTION

This Boerne, Texas location marked Acuform's first project with Coldwell Banker D'Ann Harper, launching a trusted partnership that has since expanded across multiple office locations. Situated in one of the region's most competitive and affluent real estate markets, the project focused on delivering a modern, adaptable workspace to support both immediate needs and long-term growth.

Collaborating with the company's business manager and leadership team, Acuform evaluated existing operations and proposed targeted improvements—including more flexible floor plans, reduced circulation space, and the addition of shared outdoor areas for staff. The final design promotes collaboration, maximizes usable space, and includes a 2,800-square-foot tenant area that allows for future business expansion.

“

We have received many, many compliments on what some say is “the nicest new building in Boerne.”

Nick Rispoli, Director of Real Estate
