Interior Design  
Design-Build

## PROJECT DESCRIPTION

Following the success of our continued partnership with Coldwell Banker D'Ann Harper, REALTORS and G.W. Mitchell Construction, Acuform was selected to design the first-ever Global Luxury office in the United States. This flagship project offered a unique opportunity to shape the identity of Coldwell Banker's premium brand in Texas.

Designed within a compact retail footprint, the space features a refined palette of natural, cool-toned materials. Special attention was given to lighting, finishes and fine details, resulting in a polished, sophisticated environment that reflects the high-end nature of the Global Luxury division. The success of this innovative space has led to additional design commissions with Coldwell Banker, reinforcing a trusted and ongoing collaboration.

“ This upscale version of the luxury market office is the first in the country. The design by Acuform has drawn national attention and approval as the concept for the Global Luxury brand.

- Leesa Rispoli, President ”
