PROJECT DESCRIPTION

Acuform is a proud service provider for Texas' largest grocery retailer and has been a qualified vendor since 2012. Over the past decade, we have successfully completed dozens of projects for H-E-B, building a trusted partnership grounded in reliability and results.

Our work includes more than 150 projects across the state, ranging from remodels, finish-outs, and major expansions to specialized equipment replacements and store reset plans. Acuform was a key member of H-E-B's team during the rapid rollout of the curbside pickup program, helping adapt store layouts to create the seamless and efficient customer experience

“Your team has done a remarkable job keeping up with all these projects and Acuform is our preferred design partner for future projects. Thank you for your attentive service.”

- Mark Vaclavik, Project Manager
