Interior Design  
Equipment Coordination  
Contract Administration

## PROJECT DESCRIPTION

Kahlig Auto Group, a well-established automotive group operating more than 20 dealerships across the San Antonio area, engaged Acuform to provide expedited design and construction support services for the renovation of one of its most successful locations.

The North Park Mazda dealership, having undergone previous remodels, was ready for a comprehensive update. Acuform was tasked with redesigning both the interior and exterior of the sales and administrative building, implementing a complete finish upgrade throughout.

“**Acuform overcame the complexity of this older building and remained responsive during construction to get this project completed on time.**

**- Greg Davis, Construction Manager**”
